

SEACHANGER

White Wash

The SeaChanger White Wash is the zoomable, soft-edged solution for stunning white light.

You can manually adjust focal length of the lens to create wash areas from 20 - 70 FOV.

This white light changer turns your ETC Source Four® reflector housing into a wash light that provides soft illumination for theatrical, worship and architectural applications.

SeaChanger White Wash is easily ungradable to SeaChanger Color Wash in minutes. Installation is quick and efficient.

Source Four® is a registered trademark of Electronic Theater Controls, Inc.
